List of Names from Senate Subcordittee on Internal Security

Attached herewith is a list of names submitted to me by the Internal Security Tubecommittee of the Senate Judiciary Committee. The list comprises people who have come to this country in a diplomatic or UN status. The Committee would like to know whether we have any derogatory information on any of these people other than the fact that they are mostly employees of Communist governments. They are particularly interested in whether they have any espionage or intelligence backgrounds, or similar derogatory information.
